HARALD SCHROTT, et al.
U.S. Appl. S.N. 10/509,880

R E M A R K S

Preliminary amendment of the Drawing, Specification, Abstract and claims is respectfully requested to place this application in a U.S. format. A clean copy of the Specification and Abstract is appended for the convenience of the U.S. Patent Office.

The amendment to the drawing does not add new matter but merely identifies the single figure as figure 1.

The amendments to the Specification, Abstract and claims are fully supported by the Abstract, Specification and claims as filed and do not add new matter. The foregoing amendments attend to ministerial matters and the addition of headings which are consistent with the suggested format described in 37 C.F.R. 1.77(b) and MPEP § 608.01(a) and hence do not add new matter.

It is believed the application and claims are in a U.S. format and are patentable which action is respectfully requested.

Respectfully submitted,

BRENEMAN & GEORGES
